PROJECT TITTLE	BLOCKCHAIN POWERED LIBRARY MANAGEMENT

INTRODUCTION:

- Corda is an open source blockchain project, designed for business from the start.
- Only Corda allows you to build interoperable blockchain networks that transact in strict privacy.
- Corda's smart contract technology allows businesses to transact directly, with value.

HYPERLEDGER

- Hyperledger is a collection of open source projects created to support the development of blockchain-based distributed ledgers.
- It aims to create the needed frameworks, standards, tools and libraries to build blockchains and related applications.
